## AVAILABILITY

SPRING

Meaning:

Radiant Charm

You Are Charming

You are Attractive

This vibrant species of Ranuncula is single or double-flowering with the same delicate papery textured petals that we admire in the more familiar plump Ranuncula variety. Lively and happy-go-lucky anemone-like flowers have a brilliant presence, with immediate color, volume and delicate texture.

**FARM FRESH:** Sun Valley Butterfly Ranunculus are sustainably grown in hoop houses in Southern California under the coastal sunshine.

**LASTING:** A long-lasting vase life up to 14 days.

**BUNCHES:** 10+ stems, also available as Consumer Bunches.

**CARE & HANDLING:** Upon arrival cut stems and place into a clean container with fresh, tepid water and fresh flower food solution. (It is especially important to trim stem ends if plant appears fatigued.) Remove any foliage below the water. Keep in cool location out of direct sunlight and drafts. Replenish water as needed.

RANUNCULA BUTTERFLY ARIADNE
